Alexandria, Virginia 22313-1450

Certificate
MAY 18 2005
of Correction

Dear Sir:

This paper is submitted in connection with the above referenced patent. The Patent contains one or more errors and, accordingly, a Certificate of Correction is respectfully requested. Attachment A to this document shows the error(s) and requested corrections. In addition, a proposed Certificate of Correction is attached.

Assignee believes that, because the errors corrected herein were incurred through the fault of the Patent and Trademark Office, no fee is required under the provisions of 37 CFR 1.322. If, however, a fee is required, the Commissioner is authorized to charge any such fee to Lally & Lally, L.L.P. Deposit Account No. 50-0335/IBM.5244.

If any questions arise during the processing of this request, please do not hesitate to contact the undersigned at the number listed below.

Respectfully submitted,

Joseph P. Lally
Reg. No. 38,947
ATTORNEY FOR ASSIGNEE

PLEASE FORWARD THE CERTIFICATE
TO ASSIGNEE AT:

ATTACHMENT A

11. A computer program product residing on a computer readable medium for responding to a client request for an object in a data processing network, comprising:

computer code means for determining whether a static object form response corresponding to the requested object is available;

computer code means for updating a header in the form response based on the client request responsive to determining that a form response is available;

responsive to determining that a form response is not available:

computer code means for generating a response to the client request by retrieving the requested object and performing network protocol processing on the retrieved object to generate header fields and append the header fields to the requested object;

generating a form response indicative of the generated response, wherein the form response includes the generated header fields; and

computer code means for storing the form response for use in responding to a subsequent request for the object.

21. A server suitable for use in a data processing network, the ~~[server]~~ server including processor, storage, and input/output means, the storage containing server executable instructions for responding to a client request for an object, comprising:

computer code ~~[means for]~~ means for determining whether a static object form response corresponding to the requested object is available;

computer code means for updating a header in the form response based on the client request responsive to determining that a form response is available;

responsive to determining that a form response is not available:

computer code means for generating a response to the client request by retrieving the requested object and performing network protocol processing on the retrieved object;

computer code means for generating a form response indicative of the generated response; and

computer code means for storing the form response for use in responding to a subsequent request for the object.

PATENT NO. : 6,879,999 B2
APPLICATION NO.: 09/915434
ISSUE DATE : April 12, 2005
INVENTOR(S) : ELMOOTAZBELLAH NABIL ELNOZAHY

It is certified that an error appears or errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

In the Claims:

11. A computer program product residing on a computer readable medium for responding to a client request for an object in a data processing network, comprising:

computer code means for determining whether a static object form response corresponding to the requested object is available;

computer code means for updating a header in the form response based on the client request responsive to determining that a form response is available;

responsive to determining that a form response is not available:

computer code means for generating a response to the client request by retrieving the requested object and performing network protocol processing on the retrieved object to generate header fields and append the header fields to the requested object;

generating a form response indicative of the generated response, wherein the form response includes the generated header fields; and

computer code means for storing the form response for use in responding to a subsequent request for the object.

This collection of information is required by 37 CFR 1.322, 1.323, and 1.324. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 1.0 hour to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Attention Certificate of Corrections Branch, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.
